Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-021-21589-3>, published online 1 March 2021.

In the original version of this Article, the text in the Methods section describing the lattice model algorithm incorrectly stated “For every iteration step, two direct neighbors are randomly chosen, and the swap is executed with a probability $P_{\text{swap}} = \exp(-\Delta E/\Delta E_{\text{min}})$ ”. This error has now been fixed in the PDF and HTML version on the Article to read “For every iteration step, two direct neighbors are randomly chosen, and the swap is executed with a probability $P_{\text{swap}} = \exp(\Delta E_{\text{min}}-\Delta E)$ ”.
