Received 2024 April 11; published 2024 May 10

⁶⁵ Also at Institute of Physics, Sachivalaya Marg, Sainik School Post, Bhubaneswar 751005, India.

⁶⁶ Also at Department of Space, Earth and Environment, Chalmers University of Technology, 412 96 Gothenburg, Sweden.

⁶⁷ Also at Earthquake Research Institute, University of Tokyo, Bunkyo, Tokyo 113-0032, Japan.

The all-sky distributions of alerts shown in the published article—Figures 4 and 6—contained a visualization error causing the R.A. coordinates of the alerts to be rotated by 180°. The corrected figures are shown below.

Figure 4. The all-sky distribution of the alerts in the catalog in equatorial coordinates. The orange diamonds show the Gold alerts. The gray crosses show the Bronze alerts. The 90% uncertainty contours at the location of each alert are shown by the dashed ellipses.

Figure 6. The all-sky distribution of the alerts in the catalog in equatorial coordinates. The blue stars denote EHE, the orange circles GFU Bronze, the green triangles shows GFU Gold, the red diamonds show HESE Bronze, and the purple plus signs show HESE Gold alerts. The 90% uncertainty contours at the location of each alert are shown by the dashed ellipses.
